Data Center & Network

NetWebSolutionsÂ® recognizes that downtime is not an option for any business or individual user. That's why we invest heavily in hardware and facilities that ensure that our clients are up and running on the web 24 hours a day, seven days a week.

NetWebSolutionsÂ® Network Operations Center (NOC) features raised flooring, which enables a constant flow of conditioned air and helps to maintain uniform room temperature at all times. We guarantee a 99.9% uptime or your money back!!

Our Facility features around 35,000 square feet of total space, redundant UPS systems, generator backup, VESPA detection systems, closed circuit monitoring of all areas and entrances, card key access, 24 hour guard manned security, redundant a/c systems, and fiber from 3 separate providers. We are in discussions with three additional providers for the ultimate in redundancy.

Our Facility is also equipped with fire suppression system, designed to immediately extinguish fire and protect equipment and personnel. The command center is controlled via automatic doors to further secure and protect the equipment.

The NOC is located in a secure, monitored; class A building with a minimum number of approved personnel allowed access to highly sensitive areas and equipment. A detailed record of employee and visitor entry is maintained at all times.

We Guarantee a 99.9% uptime or your money back. We stand by our uptime, and we have the experience to prove it.
