

What does NetWebSolutionsÂ® do?

NetWebSolutionsÂ® is a privately owned Web Hosting and Development company specializing in shared, and E-Commerce hosting. We are based out of Redway, California. Our company has provided businesses worldwide with reliable, professional-class network environments to host E-Commerce, E-mail and professional web sites.

If I am currently hosted at another hosting company and wish to move my web site to NetWebSolutionsÂ®, what do I need to do?

Here are the processes with establishing a hosting account with NetWebSolutionsÂ®:

First, you will want to establish your account with NetWebSolutionsÂ® by completing the Sign Up form and choosing the package of your choice. You can choose your hosting packages by

[Clicking Here](#)

and

[Click Here](#)

for E-Commerce packages.

Second, NetWebSolutionsÂ® will then create your account on our servers, and send you "Welcome Letter" which will include your new user name, password and IP Address, along with many other helpful tips. Note: It is important that you always keep this email in your files, it will be of many uses to you in the future.

Third, you will need to contact your domain registrar company (for example: Network Solutions, GoDaddy, TuCows, Register.com, and point your Domain to our servers. You can do this by simply changing your Name Servers to DS1.NetWebSolutions.com and DS2NetWebSolutions.com. Once you change your name servers to point to our servers, it will than take 24-72 hours for the domain to propogate to our network. In this process you will not normally experience downtime or loss of emails, as long as you setup your account on our servers before you change your name servers.

Fourth, using a FTP (File transfer program) like WS_FTP, Fetch, or MS FrontPage you will need to upload your web site to your domain name on our servers. You can find your account information in the "Welcome Letter" that we send you once you setup your account.

How can I sign-up?

NetWebSolutionsÂ® has simplified the signup procedures by creating an easy to follow process. After choosing the package that best fits your needs, begin the ordering process by clicking on our Order Page and follow the easy steps, you will receive your Welcome Letter shortly after.

How often do you backup my data?

Your entire website is backed up once a day. Changes are backed up every 15 minutes.

Can I upgrade my account?

Yes, at anytime if you wish to upgrade your account, simply logon to your control panel, and click Upgrade CP, you will then be able to upgrade to any package you choose.

Can I pay using checks or Money Orders?

Yes, just mail your check or money order to our Billing Address at:

NetWebSolutionsÂ®
P.O. Box 1070
Redway, CA 95560

Customers posting any of the above content on their sites will be notified, and given a 48 hour period to make corrective changes. If no action is taken, WebNetHosting will suspend services for the current site until a resolution is met. A repeated violation of this Policy will cause a cancellation of service without refund of any sort..

Can I have the names of a few sites so I can check there ping times?

Try www.hindsiteinteractive.com , www.bumequipment.com , and www.vbwebsites.com

Do you provide dial up internet access?

No, we specialize in web hosting and development, and keeping your website in good hands is what we do best, we do not provide any ISP services.

Do you allow SPAM?

Absolutely not, we monitor our network every minute of each day to make sure our network is not hit by any sort of SPAM emails or viruses.

I have an intensive CGI script I would like to run. What happens if it uses too much of the server? Will you shut me down?

NetWebSolutionsÂ® never spontaneously shuts anybody down. We are fairly liberal when it comes to server usage as long as no one abuses it. If we find a script you are running is draining more than your fair share of the server's resources we will give you a warning and ask that you trim it down. If you are looking to run expansive scripts we suggest a dedicated server.

Do you provide site statistics?

Yes, we provide you with your own site statistics tool, which allows you to keep track of everyone accessing your website.

We also offer Urchin Site Statistics for a small monthly fee. Please visit our Products and Services to view details on Urchin.

Can I host more than one website on your hosting packages?

We can point additional accounts to your hosting account at no extra charge.

Do you accept spamming?

Absolutely NOT, NetWebSolutions® does NOT accept spamming or mass emailing.

Can I use my own CGI script?

Yes, NetWebSolutions® runs a standard Apache install on a Linux server, and most CGI scripts will run on our system. Your CGI script should be located inside of the "cgi-bin" folder of the domain your using.

Do I get my own CGI-BIN?

Yes, NetWebSolutions® provides you with your own CGI-BIN.
